MOLER HEALTH

ProjectExecution

<div>Problem</div> <div>MolerHealth aims to address Nigeria's healthcare challenges, notably the rampant disease misdiagnosis due to fragmented patient data.</div> <div>This fragmentation also impedes efficient information sharing among providers, leading to redundant tests and treatment delays.</div> <div>Furthermore, the current system deprives patients of easy access to their own health records, hindering active participation in their care.</div>	<div>Solution</div> <div>MolerHealth offers a centralized digital platform for comprehensive health records, enhancing diagnosis accuracy, streamlining information sharing, and empowering patients in Nigeria</div>	<div>Unique Value Proposition</div> <div>A centralized, open-source EHR platform tailored for Nigeria, aiming to eliminate misdiagnoses by bridging the information gap between patients and healthcare providers, while empowering individuals to actively participate in their healthcare journey.</div>		
	<div>Key Metrics</div> <div>Success for will be measured by a significant reduction in misdiagnosis rates. Increased usage and adoption of the platform by healthcare providers and patients, and tangible improvements in patient outcome satisfaction in Nigeria</div>	<div>User Profiles</div> <div>Target audience and early adopters:</div> <div>Individuals and hospitals in Nigeria</div>	<div>User Channels</div> <div>Partnering with hospitals, clinics and healthcare professionals</div> <div>Doing awareness campaign.</div> <div>Working with social media infleuncers</div>	
<div>Resources Required</div> <div>Team of Professional for building the design and developing the product</div>		<div>Contributor Profile</div> <div>Software Developers, UX/UI Designers, Medical Consultants, Data Security Specialist, Quality Assurance Testers, Product Managers, Market Researchers, Legal Consultants, Community Managers, Documentation Writers,</div> <div>Each contributor plays a crucial role in ensuring MolerHealth's success in its mission.</div>	<div>Contributor Channels</div> <div>Word of mouth, Linkedin and twitter posts</div>
